RE: Annual Marillac Campus Security Review Report

Pursuant to Section 3, Stipulation O of Special Use Permit No. 2004-15, it is required that an annual Security Review Report be conducted by the Overland Park Police Department for the ongoing operations and security issues at the Marillac Center located at 8000 West 127th Street.

The attached letter from Kevin Choe, Campus Administrator, indicates that there were no security breaches or issues from the period January 1, 2009 through December 31, 2009.

The attached report filed by Sergeant Dan Carney from the Overland Park Police Department indicates that there was one elopement incident that was not properly reported. Sergeant Carney discussed the incident with Mr. Kevin Choe and also reviewed the required reporting protocol with him.

Furthermore, Office Mike Betten completed a physical security inspection/audit of the facility and found everything to be acceptable.
