

**INTRACITY COMMUNICATION**

July 12, 2010

**TO:** MEMBERS OF THE GOVERNING BODY

**RE:** Report to the Governing Body No. 10-02. Abatement of the Dangerous and Unsafe Structure at 10709 W. 128<sup>th</sup> Place, located within the corporate limits of Overland Park.

On June 21, 2010, the Governing Body accepted Report No. 10-02, and at that time, delayed action setting the public hearing, to allow the owner a reasonable time frame within which to abate the dangerous and unsafe condition.

The dangerous and unsafe condition has been abated. A building permit for fire repairs was issued on May 10, 2010. On June 25, 2010, satisfactory inspections were performed on flashing and residential rough-in.

Insurance proceeds on deposit with the City have been released to the insured and the unsafe structure action has been closed.

Sue Freeman Chambers  
Multi-Disciplined Building Inspector
